Company Profile

Who We are

As Defence / Military & Security Consultants, we are experts in Government, Defence / Military and Security Industries, as well as in Intelligence Security and Counter Terrorism Sector. More than 20 years' experience delivering defence and security-related assignments brought us a deep understanding of the complex and volatile security challenges this sector is facing lately.

- As regional leaders in contracting, government procurement policies and practices we provide Strategic program Reviews, Assessment & Advisory Services, as well as Proposal Assistance & Partner Selection.
- We operate in different countries with sales representatives in Europe, Africa and Middle East.
- **AVIOCOM Technologies/ Blackhawk**, where we provide Military & Defense Supplies , Counter Terrorism & security products and services to the government organizations, corporations, and executives. Our professional experts personally search the world to bring you the very best selection of truly innovative, highly effective and professional quality security & lifesaving products anywhere – at the lowest possible cost.

Our Activities

You can conveniently order the latest in Military & Defense , Aviation , protection and security products with total confidence & assurance that we are committed to your complete satisfaction.

Company Overview:

- We are suppliers of Military & Defense, Aviation , security, law enforcement, counter terrorism products & services to the world's governments since 1997. We also provide equipment and services to corporate and industrial buildings and facilities and to corporate executives.
- We are a complete (A-Z), full service organization, uniquely qualified to supply your every security need, including situation assessments and consultations in a most discrete and confidential manner. We also provide complete turnkey installations including training and maintenance. Custom engineered products are also available.
- **AVIOCOM Technologies / Blackhawk** are a registered Defense contractor & supplier of Homeland Security and Anti-Terrorism products & Services for the Jordan Government, Law Enforcement & Military and for the UN Offices.

Things we do

- At **AVIOCOM Technologies / Blackhawk** we believe that you should get what you paid for and nothing less. We believe in forming a partnership with our clients and that we are together for the long haul. Our after sales service is a testimony to these facts. This is only one of the many things why our clients choose us, not only are they sure of the quality of our products, but they are also sure of the quality of service.
- **AVIOCOM Technologies / Blackhawk'** aim is to build equipment that meets the practical needs of Explosive Ordnance Disposal (EOD) and Improvised Explosive Disposal Device (IEDD) operators for whatever threat or environment they are required
- to work in. We have developed a global business known for an innovative portfolio of specialist equipment by listening to the needs of our clients and the problems they face.
- The threat of Chemical, Biological, Radiological, Nuclear and Explosive (CBRNE) attacks from terrorist groups is real and it is evolving. We continue to pioneer the research and development of ever more sophisticated products and training programs to counteract this threat.

Counter Terrorism

AVIOCOM Technologies / Blackhawk has a global presence with extensive business operations partners in the United States, Canada and Europe. Our team includes some of the world's most experienced operators in CBRNE, EOD and IEDD. This firmly places us at the cutting edge of the industry, constantly challenging traditional thinking and striving to meet the needs of operators and end users. First hand operational experience of high threat situations renders the team well qualified to advice personnel involved in EOD and IEDD activities across the globe.

- Our product portfolio offers the only complete solution to CBRNE, aligning the needs of security forces worldwide seeking integrated solutions against terrorist threats. Mitigating the effects of terrorism requires powerful technologies and expertise.
- **AVIOCOM Technologies /Blackhawk** has a continuous program of product development drawing on specialist knowledge, design expertise and long established industry connections of both former companies, such as the Jordan Armed Forces & Royal Jordanian Air Force. If specialist equipment is not currently available, the research and development teams work closely with EOD Security & Demining professionals to find a solution.

Quality Assurance

AVIOCOM Technologies / Blackhawk name is synonymous with quality, innovation and expertise. Rigorous control is an integral part of our manufacturing and supply processes, with accreditation to quality assurance standards is an essential part of our business credentials.

- **AVIOCOM Technologies/ Blackhawk** specialized in Security & communications equipment and supplying Turn-key solutions including Installations, Maintenance and Training. We are one of the major companies in Jordan that provide all related solutions for Military & Civilian Telecommunications:
